

A Faster, Simpler Path to Publication

Anthony Calabro, MA

Volume 66 - Issue 5 - May 2026

As *Consultant* continues to evolve to meet the needs of today's time-constrained clinicians, we remain committed to publishing concise, clinically actionable content, and we invite you to contribute. We are actively seeking submissions across our case-based formats, including *Case in Point*, *Photoclinic*, *Case Series*, *Original Research*, and *What's Your Diagnosis?* Our **issue archive** has examples of each content type.

We recognize that clinicians have limited time to write and publish. To streamline the submission process, *Consultant* offers clearly defined, structured templates that simplify manuscript development and reduce unnecessary revisions. To that point, we have also improved the efficiency and predictability of our editorial process. From January 2025 to April 2026, *Consultant* reduced its time to final editorial decision from 69 days to 50 days, representing an approximately 28% improvement. This accelerated timeline allows authors to disseminate clinically relevant findings more rapidly while maintaining the rigor and quality our readers expect.

Through these efforts, *Consultant* aims to provide an efficient and impactful platform for sharing clinically relevant insights with a broad, practice-focused audience. We encourage you to submit your work and contribute to a growing body of practical knowledge that supports everyday patient care.

To get started, visit our **author guidelines** page and submit your manuscript through our online content management system, **Editorial Manager**. Our **case report templates** are also available to help streamline manuscript preparation.

As always, we would welcome additional peer reviewers. If you are interested, please email our **editorial office** with a summary of your areas of expertise, a list of your qualifications, and your CV attached.
